Woodford, New Orleans. Alida, Cannelton

Yesterday was a gloomy damp day, and business on the levee was dull. The only shipment made was on the Lafourche. The river continued to rise at this point, as well as at Louisville. We learn from Capt. Greer that the hull

of the new Southern Belle will be launched from the ways at Paducah to-day. It will be here on Monday or Tuesday, and the transposition of the cabin and machinery will be commenced immediately.

The regular U.S. mail packet John A Fisher, had not arrived at dark last night .-Capt. Fowler will have to fetch the Star back, the Fisher won't do. She's too slow. The Luc Eaves arrived from Green river yesterday, with a fair trip. She met with a misfortune, by which she was compelled to come in on one wheel. She can be ea-

sily repaired, and will be on the track ready to leave this afternoon. The W. V. Gillum was due last night, from Louisville, bound for Green river. She will probably be at our wharf this morn-

The new steamer Lafourche went down vesterday. She is truly a magnificent boat. She was bound for New Orleans. The steamer John Raine will be due here

from Louisville, bound for New Orleans to- election. morrow. She is a superb boat, and passengers and shippers can find no better opportonity than she will afford.

The E. H. Fairchild is due to-day. She left Louisville yesterday at 4 o'clock bound for New Orleans. The Castle Garden arrived from Cincinnati

yesterday with a good trip. She has concluded to lay up for a short senson, when she will again enter punctually into the trade.

We are indebted to Mr. Moore, the gentlemanly and accommodating pilot of the steamer Castle Garden for the following memorandum:

Steamer Castle Garden left Louisville on Thursday, 29th inst. Boats in port at Louisville, S. P. Hibberd, for Cairo; Union, for Green river,-came over the falls on four feet water. Boats in port at Portland, Fair-Cairo; John Tompkins, for Louisville .-Made eleven landings, and arrived in nine- them, and judge for themselves, respectively. teen hours. River falling all the way to Cincinnati. The splendid steamer Fanny Bullitt, Dun-

ham master, will be here to-day on her way to New Orleans. She is a good boat, and will go through on time.

The neat steamer Tempest left Louisville vesterday, and will be here to-day bound for Cairo. This will be a good opportunity for those destined in that direction. Capt. Parr will be found on deck.

A dispatch from Memphis, dated on Tuesday, says the steamer Jesse K. Bell, bound from Cincinnati to New Orleans, struck the bank in the Mississippi, at Island 34, on Sunday. She made considerable water, and entered protest and repaired there.

MOZART HALL.-It will be seen, by an advertisement, that the old Apollo Hall has undergone a complete renovation, and taken a new name, in order to disconnect it, as far as possible, with the associations of its past history. It has been made a new place, and such an one as has long been wanted in the city, where large societies and companies of all sorts can be provided with a large hall for their meetings, and with a commodious dining room attached, where dinners or suppers can be served for one or two hundred guests. The prosceneum and stage have been rebuilt, and new scenery provided. It is the largest and best hall to speak in we have in the city; being on the ground floor, with numerous doors of egress and ingress, it is accessible and safe. It is admirably adapted to dramatic exhibitions, concerts, lectures, and large public meetings.

All that is required to make it the most popular place for public assemblages, in the city, is too keep it in good order, and expel from the premises every species of rowdyism, profanity and drunkenness. If the proprietor will persevere in his determination to allow no drunken revelries and gambling on his premises, and will make it understood that strict order and decorum of conduct is to be enforced on all public occasions in the Hall, he will most certainly realize During the fair week, the dining hall, which will seat 200 persons, will be open, and meals served at all hours to any number of hereby given that the undersigned has been

FATEOF A SEDUCER,-Mr. Jackson a wealthy gentleman of Buena Vista, Tenn., a few STOVES OF ALL DESCRIPTIONS. weeks ago, discovered his daughter, a beautiful girl of eighteen had been seduced by a Doctor Bunch. As the only reparation, the father demanded that the seduce should marry his victim, and gave him three weeks to consummate it or leave the country. At the expiration of that time, Bunch still declining to heal the wounds he had inflicted the determined parent, restive with the sense of wounded honor and desperation, shot Bunch down in his office. He died instantly. Jackson delivered himself into custody, and when our informant left was in the Paris (Tenn) jail,

Special Notices.

The Great Brawback to persons emigrating to the extreme Western country, is the great fear they have of the Fever and Ague-the most direful of all diseases. Every day, we hear of persons attacked by this disease, and made helpless in a short time, without any means of affording relief. In view of the great demand for a remedy, Pr. Hostetter has presented his celebrated "BIT-TEES," whose curative powers for all diseases of the stomach have been universally acknowledged,-The "Bitters," prepared after a long experience and deep study, have received the encomiums of the most eminent physicians, as well as all classes, child, for New Orleans; Hazet Dell, for from every part of our country. The Blood to the Life .- No more shall the poor sufferers in our country languish, their constitutions racked and torn by strong and dangerous mineral medicines; they will come to the fountain of health, found in simple herbs and roots | ket. Our motto is "Value against Value," from nature's storehouse. THE MOUNTAIN HERB PILLS, of innocent mountain plants composed, will reach and stop their distress, and cause the blood, renewed and cleansed, to carry through the body the elements of health; building up the broken constitution, and carrying life and health, but for them would have been the wreck of hopethe feeble moan of suffering, at last ended by the cold hand of death. Do not let prejudice overcome your better reason; do not look upon these Pills as only like others; do not let your despair, after trying everything else, prevent you from trying these. The blood must be pure, and then sickness is impossible. What a great and yet simple truth is this! it appeals to the common sense of all; it is the great key-stone of the healing art. NEW YORK, Sept. 30,-M Her advices are auticipated by the Circassian which arrived at St. Johns, N. F., on Tues-

The London Daily News states that the government has decided on dispatching several additional steam frigates, together with a sufficient number of sailing frigates to augment the squadron in China, and to send at once a military force from India. It is also expected that a force of 1,000 marines will be dispatched to China.

The London Times says there are about 5,000 wrong-headed soldiers in the vicinity of Calcutta, awaiting a passage home, and the object should be to divert them from the West to the East, assuming, however, their re-engagement to be impracticable. There come the mighty Chinese Empire.

Conflicting accounts are published as to the state of the London builder's strike. But it was evident that great numbers of men are resuming work under the nonsociety terms, proposed by the masters. Letters from Rome state that the health

of the Pope was almost entirely restored. The Austrian party is reported as triumphant in Naples, and no reforms were to be expected. A new reform ministry was spoken of. The great land owners and others in Vinitia, had signed an address to the Emperor of Austria to take off the additional war tax, as the annual revenue from the lands cannot support such a heavy burden

An eve witne s in a letter to the London Times, thus speaks of the attitude of the Americans in China, "I cannot end withour refering to one matter that in connection with this battle should be ever remembered. Were wechildren of the same mother, we could not have received more sympathy and kindness, than we met with from the Americans. Never were men more un villingly neutral. As we passed in to the assault, flag officer Tatnall was heard to say, miral was wounded, at great personal risk, Many of our men slept in the American tender, on the night of the battle, cigars, coffee, brandy, and everything a man could want was placed before them. The Americans forgot themselves, and thought only of the British."

Worthy of Attention! S FAMILY SEWING MACHINE

This Machine is pronounced by competent judges be superior to all others before the public, for eneral family use, and what will doubtless surprise and rejoice many a woman's heart, is, that while for ordinary usage it surpasses in practical utility the highest priced machines, the cost of it will not exceed thirty-five dollars. The subscriber having purchased the exclusive right to manufacture, sell, and use this machine in this and other counties of South-western Indiana, respectfully invites all persons, Ladies especially, who are in want of a first class Sewing Machine, to call and examine the merits of the Moore's Pat-ent, being confident that on a thorough acquaintance with it, they will prefer this toall others irre-

1. It combines durability, simplicity, and practicability in a higher degree than any other now in

 In point of strength, elasticity, and endurance, its stitch is not excelled by any machine yet invented. Each stitch is locked or fustened by the machine itself, so that there is no need of drawing the thread through a loop or using a needle to fasten the end of a seam to prevent its raveling or ripping. Such is the nature of the stitch that if every third one be cut, the work will neither rip nor ravel. 3. It sews from two common spools without re winding, and sews in the very best manner, coarse and fine goods with linen, cotton, or silk thread. 4. It has the best and most reliable feed ever

5. The space around the needle and beneath the needle arm is unusually large, and what is especially noticeable, not a drop of oil is needed on the 6. Its simplicity is such that it can be understood and operated with but little instruction, and is so cheap beautiful, and useful that no family can well afford to be without one, therefore come right along, see for yourself, and if you like the machine, make one your own without delay, and my word for it, after a few days' usage it will be the last ar ticle of furniture the owner will be willing to part H. AMERICAN

Clothing trade of the West was comparatively small amount, and was confined almost exclusively to a retail business in the larger towns and cities alone. Now this line of Goods has become an almost indiscussible part of the stock of every general Dry Goods store from the crowded city to the cross-read stand. Like all changes in trade, however, this one has not been produced except for the best of reasons. Among these are the great saving of material by cutting a large quantity of garments together—the superior work and speed of sewing machines in manufacturing—the great saving of time in waiting for your "turn" at the Tailor's—the uncertainty of even then getting a satissively to a retail business in the larger towns and lor's-the uncertainty of even then getting a satisfactory "fit," and above all the saving of at least one-half the cost of the garment in the price. For a number of years this has only been a part of our general Dry Goods business, but we have made arrangements to devote our whole house exclusively to it alone with such lines of Noticus and Fornishing Goods as will be necessary and desirable in that trade. Believing that the true interest of the trade will be to sustain us in this enterprise, we would respectfully announce that we now have on hand one of the largest and most desirable stocks of WELL MADE CLOTHING that was ever offered to the trade of the West.
